

- **High concentrated Hydrogen is stably released in a long time.**

Measurement result of dissolved hydrogen and oxidation-reduction potential (ORP)

Specimen: Suspension of 1000mg powder with 100ml tap water

Measurement device: ENH-1000 TRUSTLEX

Dissolved Hydrogen (ppb)

Measurement device: TL-60 TRUSTLEX

Tap water before the test: ORP +540mv

Oxidation-reduction potential (mv)
